## PROFESSIONAL EXPERIENCE

---

**Software Engineer, Creator, SmoothSail** ([smooth-sail.github.io](https://smooth-sail.github.io)) [↗](#) 2023 – present

- Built an open-source, scalable, self-hosted feature flag management platform that enables developer teams to release/rollback features with a toggle and create reusable segments for targeting users during canary and ring rollouts.
- Designed and developed a RESTful API and a CRUD application, leveraging ORM libraries for ACID-compliant data management to meet user demands.
- Architected and contributed to implementing a resilient, asynchronous communication channel between SmoothSail components using NATS JetStream message broker.
- Contributed to building real-time event notifications using EventSource API and server-sent events, allowing horizontal scaling to accommodate increased application load.
- Enhanced SDK security by implementing key encryption protocols that support 500 authorization requests per second.
- Contributed to the design and development of UI that facilitates using SmoothSail by non-technical stakeholders.
- Authored a comprehensive case study detailing engineering challenges and solutions: [smooth-sail.github.io/case-study](https://smooth-sail.github.io/case-study) [↗](#)
- Collaboratively conceived, wrote, and refined SmoothSail with a remote team of 4 developers across the US using an agile workflow.

**Software Engineer, Self-employed** 2020 – 2023

Developed personal and open-source applications. Selected projects:

- *Request Bucket* - Tool for collecting and debugging webhooks (DO Droplet, Nginx, MongoDB, PostgreSQL, Node.js, Express, React).
- *ToDo Tracker*: A web application for tracking tasks (Ruby, Sinatra, PostgreSQL, ERB).
- *MiniMarket*: An e-commerce shopping cart (React, Express, Node.js, MongoDB).

**Data Scientist, Postdoctoral Research Fellow, DOE Joint Genome Institute** 2019 – 2023

- Led the development of an innovative HPC Microbiome data analysis pipeline and closely worked with the software engineering team to ensure its implementation at the IMG/M web portal.
- Handled 3 multi-disciplinary collaborative projects to generate and analyze high-throughput genomic data, which led to 2 peer-reviewed publications.
- Actively engaged in scientific communication through workshops and conferences; created and coordinated the JGI Journal Club with cross-functional research teams.

**Computational Biologist, Graduate Research Assistant,** 2014 – 2019

*College of Pharmacy, Oregon State University*

- Created scientific software tools, including those tailored for execution on HPC clusters, to enhance the efficiency of data analysis workflows.
- Maintained 3 collaborative projects with cross-functional teams from Norway, Brazil, and the US, which led to 4 peer-reviewed publications.
- Guided a team of 3 undergraduate students that won 9 awards and scholarships with \$25,700 in total reward.

---

## SKILLS

---

**Programming Languages & Frameworks:** Ruby, JavaScript, TypeScript, Go, Python, R, Bash, SQL, HTML/CSS, Sinatra, Ruby on Rails, Express, Jest.

**Technologies & Tools:** Node.js, jQuery, React, HTTP/HTTPS, SSE, OOP, ERD, ORM, REST APIs, PostgreSQL, MongoDB, Conda, Bioconductor, Git/GitHub, Docker, Nginx, Postman.

**Systems & Platforms:** Linux/Unix, HPC, Digital Ocean, AWS, Heroku, Slurm, SGE.

**Other:** Statistical Analysis, Data Mining, Big Data, Network Analysis, Data Visualization, Scientific Writing.

---

## EDUCATION

---

<b>Launch School</b> 	2020 – 2023
Software Engineering & Full-Stack Web Development	
<b>Oregon State University</b>	2014 – 2019
<i>Ph.D.</i> in Pharmaceutical Sciences, Minor in Biological Data Science	
<b>Taras Shevchenko National University of Kyiv</b>	2008 – 2010
<i>M.S.</i> in Biophysics	

---

## AWARDS

---

<b>Travel Award</b> , <i>Oregon State University</i>	2019
<b>Holt Graduate Research Achievement Award</b> , <i>Oregon State University</i>	2018
<b>Best Poster Award</b> , <i>Annual Rising Lecture Series and Research Retreat</i>	2017
<b>Cum Laude</b> , <i>Taras Shevchenko National University of Kyiv</i>	2010
